Dear Parents,

For 39 years, the Cumberland County Schools' String Orchestra program has provided instruction in violin, viola, cello, and bass to thousands of young musicians. We invite you to consider your child's participation in this exciting music program.

Starting at the fifth grade level, orchestra instruction in violin, viola, and cello is offered twice weekly during the school day. Each of these instruments has been demonstrated to your child to assist him/her in determining a preference for study. If your child is interested in playing the string bass, we would recommend that they begin study on the violin, viola, or cello this year and switch to bass next year in middle school. Orchestra instruction is also available at the middle and high school levels throughout the county school system. If you decide to take advantage of this educational opportunity, **please fill out the form at the bottom of the page and have your child return it to his or her classroom teacher.**

If you choose to enroll your child in the Orchestra Program, we invite you to attend one of the **Parent Night Sessions** listed on the back of this letter. This session is a "drop in" for parents and students between the hours of **4:00 and 7:00 p.m.** in locations around the county. Members of the orchestra faculty will be available to answer questions or concerns, give you information about the orchestra program and counsel parents and students on instrument size and selection. Your child will be measured at this time for the proper size instrument and given the times and dates of orchestra classes offered at his/her school. If you are unable to attend one of these meetings, please contact your child's orchestra teacher for further information.

Learning how to play a string instrument and belonging to a school orchestra opens up a whole new world of friendship and fun. As a string orchestra player, a student will be able to take advantage of music performances with orchestras at the middle and high school levels as they progress. Orchestra students may participate in academic and athletic activities, as well as other extracurricular activities and still be a part of the school orchestra.

Thank you,
The Orchestra Faculty
Cumberland County Schools
